

*Air Volume: 400 to 700 CFM
Weight: 50lbs to 100lbs*

Shown with optional features

The patented fan/filter assembly provides strong suction at the extractor inlet providing source capture for many applications. The modular design and sturdy construction make it a solid solution for almost any industrial environment applications. All SAS Units combine small size, quiet operation, convenient mobility, and high efficiency filtration to provide an excellent choice for areas where clean air is desired.

Technical Specifications

Cabinet Dimensions	HEPA Filter	Cabinet Material	Electrical	Sound Level
20" D 20" W 14" H	Up to 99.97% at .3 Microns	16 ga Carbon Steel w/ Polyester Epoxy Coating on Surface	115/1/60 Approx. 2.5 amps	60 dba @ 3'

*Limited one year warranty from date of shipment on defects due to materials or workmanship.
All specifications are nominal and subject to change without notice.
Not intended for explosive or highly combustible applications.*
