The 40" Wide Pharmaceutical Containment combines powerful air flow with a sturdy and compact enclosure for optimal respiratory and environmental protection. This powder containment hood is designed to pull harmful powder and particulate up and away from the operator's breathing zone and into the filter chamber.

Depending on the application, this chamber houses either HEPA filtration [up to 99.97% efficient on particles 0.3 microns and larger], ASHRAE filtration [up to 95% efficient on particles 0.5 microns and larger], or ULPA filtration media [up to 99.9995% efficient on particles 0.12 microns and larger]. Variable Speed Control and a Fluorescent Light come standard with this unit.

The 40" Pharmaceutical Containment Hood provides a ductless, energy efficient, and economical solution for pharmacies in need of a high-quality respiratory engineering control. **Transparent hood material and other custom modifications are available at extra cost.**
